Detailed Rationale

Crisil Ratings has downgraded its rating on the long-term bank loan facilities and debt instruments of Samunnati Finance Private Limited (SFPL; a part of the Samunnati group) to '**Crisil BBB-/Negative/Crisil A3**' from 'Crisil BBB/Negative/Crisil A2'.

The rating on non-convertible debentures amounting to Rs 25 crore (see Annexure - Details of rating withdrawn for details) has been **withdrawn** post receipt of confirmation of redemption of this instrument. This withdrawal is in line with the Crisil Ratings' policy on withdrawal of ratings.

The downgrade rating action primarily on account of driven by continued moderation in asset quality along-with de-growth in asset book leading to weakening in group's profitability metrics.

SFPL's asset quality was affected due to issues faced by the company in certain geographies such as Bihar, Tamil Nadu & Karnataka (which contributes to ~ 41% of the portfolio) during the last fiscal. The GNPA on a reported basis stood at 4.51% as on March 31, 2026, as against 4.03% as on March 31, 2025. However, the GNPA on adjusted basis (including write-offs) stood at 10.8% as on March 31, 2026, as against 7.8% as on March 31, 2025 (8.8% as on March 31, 2024). The company also carried out the sale of portfolio aggregating to Rs 318 Crore (including written off portfolio of Rs 160 crs) to asset reconstruction companies (ARC) done in fiscal year 2026. Increased delinquencies have been attracting higher provisions; in fiscal 2026, credit costs increased to 9.5% as against 2.4% during fiscal 2025.

The higher provisioning requirements coupled with continuous degrowth in asset book led to further weakening of the profitability. At consolidated level, the group reported a loss of Rs 244 crore translating to return on managed assets (RoMA) of negative 11.1% during fiscal 2026 as compared to profit after tax [PAT] of Rs 5.3 crore (not-including deferred tax expense of Rs 79.3 Crore) and RoMA of 0.2% in fiscal 2025. Therefore, company's ability to show substantial improvement in its portfolio quality and revamp its business model will be critical in order to be back at profit-making mode.

Nevertheless, ratings continue to benefit from the group's adequate capitalization; during Q1 fiscal 2027, an equity of Rs 58 crore was infused by existing set of investors. The networth at consolidated level stood at Rs 401 crore with gearing of 3.3 times as of March 31, 2026, as against Rs 590.5 crore and gearing of 3.2 times as on March 31, 2025.

The overall ratings continue to factor in adequate capitalisation backed by the rich pedigree of its investors and extensive experience of the management in the agricultural financing business. These strengths are partially offset by average, though, improving profitability, limited track record of profitable operations and below-average asset quality metrics.

Analytical Approach

Crisil Ratings combines the business and financial risk profiles of SFPL and Samunnati Agri Value Chain Solutions Private Limited (SAVCSPL), collectively referred to as the Samunnati group. This is because the entities have a common promoter, shared brand name and have significant managerial and financial linkages.

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers - Strengths

Adequate capitalisation supported by regular equity infusion and rich pedigree of investors

The group's capital position, as reflected in its consolidated networth at Rs 401.6 crore as on March 31, 2026, is adequate in relation to its scale of operations. The overall capital adequacy ratio (on standalone basis) remained comfortable and stood at 19.6% as on March 31, 2026. The group had multiple rounds of fundraising since fiscal 2016 in which all previous investors participated . The key investors include Elevar M - III, Accel India V (Mauritius) Ltd, responsAbility Agriculture I, SLP and TIAA. As of March 2026, adjusted consolidated gearing stood at 3.3 times (3.9 times on standalone basis) and is expected to remain around 4.0-4.5 times over the medium term. In terms of additional capital raising, the group has raised ~Rs 58 crore equity infusion from existing investors in June 2026   The ability to ramp up internal accretion to self-sustain capital position and thereby keep gearing within 5 times remains a monitorable. Nevertheless, going by past track record, the group should raise the required equity capital in a timely manner and ensure the overall capital position remains strong.

Extensive experience of founder within agricultural space

The promoter, Mr Anil Kumar S G, has over 30 years of experience in banking and agricultural financing. Mr Anil began rural agricultural financing in 2007 as the founder-trustee of the Institute for Financial Management and Research Trust, wherein he designed and deployed a local financial institution model called Kshetriya Gramin Financial Services.

Nevertheless, the company has underwent few changes both at its board and announced certain revisions of its senior leadership. Mr Anil Kumar has moved to strategic role and continue to serve on the boards as non-executive chairman. During Q1 fiscal 2027, Mr Diwakar Ram Boddupalli has been appointed as Managing Director and Chief Executive Officer. As far as group's board is concerned, there were also changes with two independent directors stepping down. However, on June 11, 2026, Mr. Pammi Venkata Subrahmanya Suryakumar was nominated as one of the independent directors on board of SFPL. Given there has been quiet a few changes both at board and senior management level, the ability of group to revamp its operations and be back to profit generating mode will remain monitorable.

Key Rating Drivers - Weaknesses

Weak profitability

SFPL's profitability has been affected on account of higher provisioning requirements coupled with continuous degrowth in asset book led to further weakening of the profitability. At consolidated level, the group reported a loss of Rs 244 crore translating to return on managed assets (RoMA) of negative 11.1% during fiscal 2026 as compared to profit after tax [PAT] of Rs 5.3 crore (not-including deferred tax expense of Rs 79.3 Crore) and RoMA of 0.2% in fiscal 2025. At standalone level too, the company reported pre-provisioning profit (PPoP) of Rs 5.1 crore and net loss of Rs 147.4 crore in fiscal year 2026 as compared to PPoP of Rs 52 Crore and net loss of Rs 74 crore respectively, during fiscal 2025.

Apart from higher provisioning needs, SFPL's profitability has been affected due to continued de-growth in asset base. Company's assets under management de-grew by ~36% to Rs 968 crore as on March 31, 2026, from Rs 1,509 crore as on March 31, 2025, and Rs 1335, as on March 31,2024. The business reorganization done during last fiscal also resulted in temporary operational challenges in this fiscal. Apart from that, the company also significantly reduced its exposure to high ticket size loans as prudent underwriting measure. This along with the portfolio sale done to ARC resulted in a degrowth in its portfolio. Nevertheless, in order to improve profitability, the management has increased the average yields on the portfolio and is focusing on reducing operational costs through increased usage of tech to improve efficiency. That said, given the high volatility observed in the group's earnings profile in the past, its ability to significantly improve its profitability while scaling up both its NBFC as well as trading business will remain a key rating sensitivity factor.

Weakening asset quality metrics

Asset quality remains vulnerable to sharp increases, given the credit risk profile of the underlying borrower segment. These loans are primarily given to AEs, FPOs and community-based organisations (CBOs) and are ultimately used to fund the agricultural-processors, importers, exporters, traders and farmer groups. These segments are exposed to cash flow cyclicality, which could result in potential slippage and given the unsecured nature of the loans, recovery could also be limited. The GNPA on a reported basis stood at 4.51% as on March 31, 2026, as against 4.03% as on March 31, 2025. However, the GNPA on adjusted basis (including write-offs) stood at 10.8% as on March 31, 2026, as against 7.8% as on March 31, 2025 (8.8% as on March 31, 2024). The company also carried out the sale of portfolio aggregating to Rs 318 Crore (including written off portfolio of Rs 160 crs) to asset reconstruction companies (ARC) done in fiscal year 2026. Increased delinquencies have been attracting higher provisions; in fiscal 2026, credit costs increased to 9.5% as against 2.4% during fiscal 2025 While the group is taking various steps to improve its risk management and underwriting practices for the incremental disbursements, its ability to show substantial improvement in its asset quality will remain monitorable

Limited track record of profitable operations

The group continues to lack on maintaining sufficient track record of profitable operations. It commenced full-fledged operations in fiscal 2017 and scaled up its portfolio substantially post the pandemic. The group's business model caters to the financing needs of farmers through agricultural enterprises (AEs), farmer producer organisations (FPOs), farmer groups and non-governmental organisations. Hence, evaluating the credit risk profiles of these clients is critical. The model is refined continuously based on the performance of the portfolio and feedback from the collections and credit teams. However, this type of agricultural financing model remains relatively in the initial stages in India (in comparison to other asset financing businesses). The company has been taking several initiatives to support growth and profitability. However, ability of the group to substantially improve and sustain both its asset quality and profitability will remain monitorable

Liquidity Adequate
As on June 9, 2026, the group had liquidity of around Rs 47 crore. Liquidity buffer to cover total debt obligation and operating expenses, on a consolidated basis, till August 2026 (assuming 50% collections) was 2.2 times.

Outlook Negative
Crisil Ratings believes that the company's profitability will remain constrained over the near term on account of higher provisioning needs and significant reduction in portfolio.. Timely equity support will be critical to sustain its capital position and its overall credit profile.

Rating sensitivity factors
Upward factors
- Substantial improvement in asset quality and scale of operations resulting in profitability with RoMA (consolidated level) maintained at over 1%
- Capitalisation metrics remaining strong, with gearing remaining below 3 times

Downward factors
- Steady-state adjusted gearing of over 5 times, or inability to raise capital to fund growth
- Adverse movement in asset quality metrics and consequently credit costs, thereby leading to further weakening in group's profitability metrics

About the Group
Incorporated in November 2014 and promoted by Mr Anil Kumar S G, the Samunnati group provides financial services to the agricultural value chain. It started operations through retail loans in the dairy value chain. In December 2015, the group gave its first loan to an FPO, and in January 2016 it provided its first loan to an AE. In October 2016, the group established three verticals - retail, CBOs and AEs. It has a business-to-business-to-consumer model in which it does not deal directly in retail loans

As on March 31, 2026, the group's assets under management stood at Rs 968 crore as against Rs 1509 crore as on March 31, 2025 (degrowth of 36%). The group reoriented its focus to FPO and AE verticals. Both FPO and AE vertical contribute to about 92% of the total business.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)
Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
